

## A Homily for Activating our I-AM Presence in the Energies of 2011

This is a time of discernment. It is a time of individual efforting towards upliftment. For the final separation is at Hand, and so is our Divinity. We each have the responsibility to go inwards and find the source of our Divinity, our God-Self, our Mighty I-AM that we are and have always been. There are many sham religions and false teachers out there, who are touting a new age of 'happiness' and 'bliss' without having done their own home work. And this home work is the in-most reflections of Selfhood, that which makes each and every one of us Masters. The journey of self-mastery is an ancient path; there are no shortcuts. You need to use all of your spiritual gifts to open to the new reality. The saying is: "Ask and you shall receive, knock and the door shall be opened unto you". But what happens after the call has been answered and the door is flung wide? Do you know? Do you know what to do, how to act? React? Proceed? It's quite simple, you find the time to sit in silence, listen to your heart beating, your inner still small voice speaking. And then you listen to the instructions therein. This may be to find a 'True' guide who can help you find your path, kind of "get you on the track" as it were. But do not rely on that person or any guru upon the earth, for this is a time that each soul must find his/her way through to enlightenment. Yes, you can call on the Divine for assistance, you can call on the Ascended ray Masters, Lord Christ, Lord Maitreya, Lord Buddha – all of them are in Shamballa and eager and happy to assist you upon your upwards journey. But all, without fail, will tell you that it is "your journey", "Your work to do", nothing will be done for you, you must do it. And that, you know, is in itself, a great joy. We have the Power to save ourselves, one soul at the time, all across the planet. We are discovering our God-Selves, everywhere and at once.

So what is happening with all this Divine energy that is coming from on High? Well, it's quite true. There are tremendous amounts of God-force energy directed, not only at Earth and our solar system, but at our entire Universe. The Masters tell us that this is just the beginning of all the wonderful joyous and uplifting experiences that we will experience as we move towards the final separation. This is the time of the "gathering in" of all the Children, as many as that will be willing to turn to the Light and find their pathway Home. Home is where the Heart is, is where the soul naturally dwells, is where the Higher Self that rests within the Cosmic Heart of Mother-father God resides, and it is also the coming down of this Highest Self, our Christ-like OverSelf. This is the I-AM Presence of our True self, who and what we have always been, but have forgotten in our journey into duality and upon the lower

dust worlds. But it is time. Time to move on and move up. We each go inward, do the work, find the pathway unique to us, and then we “stay there”. But “staying there” doesn’t mean becoming stagnant or complacent, but rather it means being proactive, both for ourselves and the acquisition of Divine energies, also known as christLight, and it means helping others on the outer plane, (the phenomenal world) to their highest potentials. You can’t force anyone to the Higher Life, you can’t even talk them into it, but you can show, by your example, what the Higher Life, the Highest Potential of Godhood looks and feels like; you can go out into the world and give service. By showing your love for humanity, for all souls on this earthplane you can be a beacon of Light for others, a Way-shower. And isn’t this what Jesus the Christ did 2,000 years ago, and isn’t it what he said that we all would come to do, this and greater? Yes, But don’t be fooled by platitudes coming from people who are themselves not true seekers on the path.

If an earthly teacher has not done the work, and says that he or she has all the answers, or that there is only one way to enlightenment: there way – then RUN! Turn from that person and find your own pathway, your own true self nature. Yes, it’s okay to ask for guidance from time to time. Learn how to open the chakras, work with kundalini, bring in the ChristLight, build the rainbow bridge to God, and even call the Ascended Masters to help you on your journey; but, do not, do NOT, give away your power to anyone. Once you have learned enough from those you resonate with, go on. Just go on and do not hold to a guru, a special teacher or friend; do not rely on out-dated teachings from any source whatsoever, go with the flow, go with God.

This is truly a time of “Let go and Let God”. That’s a very important tenet. We are in the field of energy now for the next five months or so that is inviting each of us, and most especially the way-showers to go deeply now into their being and release all that is no longer needed; to unload all excess baggage. You, after all, can’t take it with you. Whether it is furniture, personal possessions, or past-life memories, belief systems, or attitudes – it is time to let them all go. Give them all to God. Then move on. And moving on is Always moving Upwards. And of course, moving upwards is nothing less than taking your full ascension into the Light. Become the Light of who and what you have always have been.

I have said this over and over, essay after essay, in different ways at many different times. But the bell is ringing now. We need to Wake Up, stand up and be counted. For it is the time of the separation of the wheat from the chaff. And it is not an apocalyptic kind of separation, although there

will be many earthchanges that involve fire, flood, wind, and earthquakes; it is rather a time of “raising one’s consciousness”, actually raising the vibratory rate of one’s Higher Mind. To do that, one needs to know what one’s Higher Mind is, what vibration is, what soul and oversoul are. To do this, we need to let go of dogma and institutional religions, Everywhere. There is No one right religion. There is only god. There is only you and god. There is only God and the Universe, of which you and I and everything else is.

So, where are we? Well, first off, the Earth is ascending too. Whether we want her to or not, she is. Thus the earthchanges. Long predicted by such respected seers and channels as Edgar Cayce and the Mayan elders, she is of necessity moving into her next dimension. And if we on her surface wish to go with her, we must attune ourselves to her new vibrations. That is, we must raise our vibratory rate from 3<sup>rd</sup> dimensional duality, to 5<sup>th</sup> dimensional reality. This is a concentrated level of activity. We do this by asking the legion of ascension Angels, and especially the Archangels to help us “raise our vibrations, the vibration of our consciousness ”. And we do this by learning to work with the ancient pathways of discipleship. No! You don’t have to run off to an ashram in India. You can do it right at home. No. You don’t have to read a gazillion books on ascension. You just have to “experience” what it is and how to manifest it. No. You don’t have to pay thousands of dollars to go to guru-style workshops. You, my dear friends of the Light, must learn only to meditate. That’s it! Each day, twice a day for 20 minutes, then for an hour each time, find a place that is sacred and special to you and sit there. Let all outside worries, concerns, thoughts go—just let them go. Don’t listen to beautiful music or distracting lectures, don’t pray, don’t say anything. Just sit there and “Let God talk to you”. It sounds so rudimentary, doesn’t it. Well, it’s the doorway into the innerplanes, and once you are there wonderful things will happen. First your mind – what is referred to as your lower mind – will clear. Synchronicities will happen, and you will find that experiences in your life will be teaching moments. You will create a pocket of zero-point positive energy around you and in your home as well as in your heart. You will find the desire to less anger and more helpfulness. You will, in short, find love. This God-Love is the strongest force in the universe. And, you will find your heart’s desire to forgive.

The energies that are coming from the Great Central Sun (Heaven) are very powerful. And the June-July eclipses and the 2011 summer solstice have been instrumental in delivering these packets of Light-energy directly to each and every one on the planet (and, as I said above, to the universe in general). But there is more to come. In August, after July’s full moon, which in itself will be a powerful

cosmic alignment, there will be a greater magnitude of God-Light coming forth. So how do you deal with it? You deal with it by 1) meditating and doing your internal clearing and putting up your christLight protections; 2) you deal with it by opening your heart, mind and body to the incoming energies with Love and acceptance of God's Love and Presence; 3) You do it by staying in the Flow and going with the ups and downs -- the peaks and valleys of God's pulsations for this Universe and its upliftment. That's it. Simple. If you find any one who tells you NOT to go with the "Flow" or tells you that you do not ever have to "surrender", well, then, be very very cautious. Because you do need to surrender, and all that you are must be what you surrender, but there is only one that you surrender to, and this is God, or Creator source – Mother-Father God – these are all names for the one Supreme Divine Source of Creation, what the druids used to call "the Uncreated One" What the Ancient texts call "the Creator Most High". And yes, going with the Flow is actually going with Divine Order. Remember this is God's plan for us. This is our salvation. It's not going to be great illumination from on High in a great cloud of unknowing. Yes, the Teachers and the Lord Christ will come, but not as you have learned it from religion. The Teachers from on High all know of Revelations and they too are following God's Divine Plan. It can be no other way.

So there will be a period of darkness that will come upon the Earth, but this is not the sign of the ending of the Earth, or time, or anything else. It is the transcendence of Mother Gaia into the next dimension. A time we need to sequester ourselves and be still. It won't be long, a matter of a few hours, nothing more, but there must be no fear around this event, as it is a very practical and instrumental part of the Divine Plan for Earth. Just wait and see. But this time is still a little ways off. There will be time to choose your path Home, to clear your baggage, to bring yourself and your loved ones into relative peace. There will be a time of prosperity and a time of better governance upon the Earth, and there will be the coming. The Teachers will all come, as will the Christed ETs and we will learn from them that which has been forgotten, that which is our heritage, and that which we are all heirs to. Be at peace, dear ones of Light, be in Joy, and put the pedal to the metal, that is, Meditate. Find your own in-roads to Heaven on Earth, bring Heaven down right here and right now. Choosing the upwards path is always a joy. Fear nothing. Release everything. Live in the Eternal Now, this "Now Moment", and realize that we are Not alone, have never been alone, and that there is a wonderful universe out there of our Star Brothers and Sisters, Star-Nations that are eager to come in Love and in the Father's name to show us the way home.

We have until now been a quarantined planet, because of our tendencies toward violence, deadly weapons, war and our unrealized self-nature, but with this new world we are co-creating right now with all we are choosing to do, with all the Light we are bringing forth in ourselves and on our planet, with forgiveness happening everywhere, with the diminution of the dark powers, and with the power of Love, we are all demonstrating our worthiness to be in the Fellowship of Light, the Collective of all God's children, even though we are moving out of our childhood into our adolescence and soon into our adulthood as god-realized Beings of Light and Love. So, stay the course. Relax and enjoy. Meditate and do random acts of loving kindness, learn what it is your heart's desire is, and know that you are Loved! God Loves you. And knows where and who you are. You can hide Nothing from God. Live as if you were in a glass house, for the many mansions of God are in the Universal I, which is the Great I-AM.

God Bless you, each and everyone, And Peace!

From matthew Speaks:

When Earth reaches the threshold of her Golden Age at the end of your next calendar year, every soul on Earth shall be free, and the growing numbers of lightworkers are leading the way. ... It is fervently hoped that all souls will welcome the light as old systems give way to the new and our space family assists you in restoring Earth to her original health and pristine beauty. However, every person has the free will to receive the light, which they chose to do in their soul contracts, or to repeat this lifetime's experiences in some other third density world. Regardless of how many become enlightened about their true selves as inseparable aspects of God and all other souls, the long ages of duality in your civilization are almost over. The dominant masculine energies that kept war, brutality and ruthlessness surging through millennia are being balanced by the inundation of feminine energies, and within balance there is only light.

The countdown to Earth's entry into her Golden Age is coming with ever increasing speed as your linear concept of time continues passing faster and faster. Use the remaining time prudently! Acknowledge your god and goddess selves and trust and heed your intuition, your souls' messages to your consciousness. Let go of trivial thoughts, interests and activities that have no place in fourth density life, where glorious wonders abound.

As long as needed, you will have the assistance of our universal family—light in abundance from powerful sources in this galaxy and others, technological help from the crews in ships in your skies and those soon to be on the ground, and the growing influence of our benevolent brothers and sisters living among you. As you prepare to take your rightful place as multidimensional beings in the Oneness of All, trust that within your soul is all the information and power you will ever need. No longer will you ask for answers from external sources such as we and other messengers of the light because your innate wisdom of the universal laws and your latent abilities will serve you well. Perhaps you will smile when you realize that the enlightenment and guidance we have offered over the years always has been your own knowledge and all we did was gently nudge it into your remembrance.

Of the many, many billions of souls who wanted to be a part of this most exciting time in the whole of the universe, you are honored to be among those who were chosen. Rejoice in this privilege and responsibility knowing that the infinite, eternal and unconditional love of all light beings in this universe is with you every step of your pathway.
